

Lifetime 100% Money Back Genetic Health Guarantee

All of our puppies are guaranteed to be in good health and free from visible signs of infection and contagious or communicable diseases when purchased.

Within 7 days of Purchase

If your puppy is returned for any reason other than an accident within 7 days of purchase we will take the puppy back and refund 100% of the purchase price.

SELLER GUARANTEES: Seller makes every effort to ensure that the puppy is healthy at the time of transfer. We will not allow a puppy to leave until we are certain that the puppy is ready for the trip to your home and has passed a licensed veterinary health inspection, is free from any illness, and is eating quite well on its own.

Your new puppy MUST be examined by a licensed holistic veterinarian within 48 hours of receiving your puppy to validate this guarantee. It's highly recommended that you make the appointment as soon as you know the date you will be receiving your puppy.

*****However, any exam performed by a vet belonging to the Banfield network (Petsmart/Petco) will VOID this guarantee in its entirety due to their reputation of financial abuse of new puppy owners.

****Should your vet find the puppy "unfit" for sale upon this initial examination, it will be replaced provided the puppy is returned with a written statement from the vet stating the nature of their findings.

Tara's Schnauzers also has the right to have their vet check the puppy out prior to any exchange!! It is the Buyer's responsibility to return the puppy along with all registration papers and other package contents. Seller shall not be responsible for medical expenses that buyer has incurred.

This contract is written for the protection of both the breeder and the buyer - However, it is primarily written to protect the health and general well being of the puppy.

Lifetime 100% Money Back Genetic Health Guarantee

If your puppy is diagnosed by a suitably qualified veterinarian as having a *life threatening or seriously disabling defect of certain congenital/genetic origin* any time in its life we will refund 100% of the purchase price or pay for treatment, up to the purchase price, at a Veterinary clinic approved by us. We reserve the right to require a second opinion from a veterinarian of our choice at our expense. If the puppy is euthanized, or in any way disposed of, without a second opinion from the seller's veterinarian, the buyer waives all rights to a refund.

***Note:** This warranty is void in the event of an undetermined or inconclusive diagnosis. Diseases of likely environmental origin (likely to be caused by suboptimal diet, chemicals (vaccines), or trauma, or poisoning from plants, etc.) are not covered.

If your puppy dies and you request a refund, you must have a necropsy performed by a suitably qualified veterinarian at your expense to determine the cause of death. Your puppy will be refunded if the death was caused by a genetic problem or an illness which your puppy had at the time of purchase. For this reason, ***it is required to have your puppy checked by your own holistic veterinarian within 48 hours of purchase or this guarantee is void.***

Your new puppy has been given vaccines that were delivered to us in cold pack and were immediately transferred to our refrigerated storage until the vaccine was used and the coordinating label placed in your puppy's vaccination booklet following the manufacturer's instructions. All vaccines are NOT created equal; therefore, you or your vet may notice a different schedule has been followed according to the specific vaccination administered. Because **over vaccination can cause serious health consequences**, any vaccination given before your puppy is actually due for its next vaccine will **VOID** this guarantee in its entirety. All of our puppies have completed their regimen of immunization to their age appropriate vaccination schedule at time of delivery. It is the Buyer's responsibility to set up an ongoing appropriate vaccination schedule with your vet. We assume no responsibility for any illness to other household pets resulting in being exposed to your new puppy.

Seller cannot guarantee the puppy against illness or opportunistic parasite brought on by the stress of moving (from our house to yours), shipping, or motion sickness resulting from being transported. This stress can ignite illnesses and opportunistic parasites such as hypoglycemia (sugar drop) or coccidia (dormant in most live animals), giardia, kennel cough, etc. Seller also does not guarantee the puppy to be "worm-free" as this is an on-going process that, once the dog is out of our control, is responsibility of Buyer. These are easily and economically treated and should they occur SELLER SHALL NOT BE RESPONSIBLE FOR MEDICAL EXPENSES OR OTHER COSTS THAT BUYER HAS INCURRED.

This guarantee does NOT cover any costs associated with spaying or neutering, nor does it cover injury or death from any routine surgical procedure. Further, this guarantee does not cover any of the following conditions or minor flaws: coccidiosis, giardia, hypoglycemia, kennel cough, pneumonia, ear mites, ear infections, skin mites, mange (sarcoptic demodectic or cheyletiella), cherry eye or any other non life-threatening eye, skin, or tissue issues, allergies, over or under bites, herniations, a non life-threatening open fontanel, non life-threatening bone or joint disorders such as but not limited to luxating patellas and heart murmurs that are not life threatening. Seller cannot guarantee size, color, coat quality or shedding/non-shedding coats, temperament or fertility (including presence of testicles) of any puppy.

Seller cannot guarantee size or conformation and does not imply or intend to imply any potential and/or prospect of show quality of any puppy. In addition, Seller cannot guarantee that dewclaws will not re-grow and will not be responsible for any vet charges the Buyer may incur in removing dewclaws or tail docking.

***Please do not expose your puppy to other dogs that are not vaccinated until he/she has completed the entire vaccination schedule - around 16-20 weeks old. Tara's Schnauzers is not responsible for any contractable diseases or infections if seller does not adhere to this recommendation from the Breeder.

***This guarantee does not include minor illnesses and health issues such as colds, allergies, internal or external parasites or umbilical hernias. However, the breeder will disclose any known illnesses or health issues prior to the sale.

ABUSE/NEGLECT: In the event that the dog is mistreated, neglected, abused in any way, kept outside in extreme heat or extreme cold conditions, kept on wire flooring, Seller has the right to rescue the dog immediately, with no notice or compensation to Buyer. Buyer shall voluntarily surrender any kennel club registration papers (if applicable), microchip records, and health records.

I do not cover surgery related to umbilical hernias, if your puppy should have one or any problems associated with one. Your puppy has been offered at a discount if there is one present as we disclose any faults at time of sale. I do not guarantee size as puppies can inherit genes from either parent. The buyer must agree to provide holistic veterinary care. Failure to comply with and provide documentation of the above requirements voids this warranty. Hypoglycemic shock and death is covered within 72 hours after leaving my premises. If your puppy were to die as a result of hypoglycemic issues within 72 hours, I will refund the purchase price of the puppy. Vet bills treating this condition are not covered. *At this time of transfer, you assume all continued health care of puppy and accept the responsibilities of pet ownership and accept the puppy as is on date of sale.*

The dog must NOT breed before the age of two (2) years otherwise this contract is NULL and VOID as to any guarantee.

I have included in your puppy packet a complete health record and a Vet. Certificate of Health for your DVM to review. I give no refund if your puppy eats any hazardous plant, food, object, medicine, or poisons or gets hit by any vehicle or runs away.

HEALTH & NUTRITION: Buyer agrees to keep the dog in good physical condition and to provide proper shelter, exercise, fresh water, dog food, treats, pet care products and nutritional supplements as described in this paragraph. Because 60% of all degenerative disease is related to poor nutrition, it is required that the puppy remain solely on a minimum of 60% raw meat diet without lapse for the puppy's life in order to qualify for the 5 year and lifetime health guarantee against inheritable disease. And only use a Holistic Veterinarian.

This health guarantee is null and void if any of the following is done to said puppy:

- De-sexing before 12 months of age, studies show if done before this, your chances of cancer greatly increase!
- More than one vaccine at a time is given. Absolutely no 7 way, 5 way, 3 way, etc. Is to be given. Only ONE vaccine for ONE thing at a time is to be given.
- Once puppy has received it's first round of vaccines, you must use titers before re-vaccinating, vaccinosis - vaccine damage - is very real and very damaging, ask to read insert to vaccine before having it administered to your pet!
- If you use any products with the following ingredients: Isoxazoline which is also sold under: Fluralaner, Afoxolaner or Sarolaner - these are very debilitating and there are many holistic solutions to use in place of these.

Tara's Schnauzers has taken every care to give you a quality, healthy pet - you must continue in the same vein and understand and educate yourself on the toxins you are giving your dog.

Puppies are sold to pet homes only - no registration papers will be given however, your pup will come with a certified generational generated pedigree to show your pup's background.

All legal disputes are to be settled in county & state of breeders residency.

Lifetime Re-homing Guarantee

Your puppy also has a lifetime re-homing guarantee with us at Tara's Schnauzers, so should you have an inability to care for him or her in the future, you can contact us at any stage of your puppy's life. Under no circumstances must your puppy ever be given up to a shelter.
